

OLIVER GOLDSMITH

Photography course

Oliver Goldsmith and Ridgway Optical Supplies have announced a joint distribution agreement for the Oliver Goldsmith Photograph collection of spectacle frames in the UK.

The deal for the UK-designed and Italian-made frames has seen Ridgway Optical Supplies create a premium division within the company.

Pictured from the Photograph collection are the Janet style for women and the Harry frame for men. The acetate Janet style has a relaxed cat's eye silhouette while the svelte metal shape Harry has a Windsor rim in contrasting hues.
